LIVELY DAY FOR STOCK EXCHANGE

Tintic Combination Jumps in Front as a Much-Sought Stock.

PIOCHE METALS IS LISTED.

Uncle Sam Makes New High Record For the Year-Prospects of Good Ore Sends Price Up.

the local stock exchange today prices showed a greater tendency to advance than has prevalled for weeks and trading took on the real glow of a healthy market. Nearly every stock advanced under the buoyancy of the Tintie specialties. This class of securities was again to the fore today. Nevada stocks also had a good market.

Considerable activity was shown in black Jack and the tendency of the market was upward. East Crown Point was another Tintle that moved up.

Tintle combination took a good jump this moroling and \$2,500 shares of stock changed hands on the regular board at 7 and 7% cents. One brokerage firm tied up 15,000 shares of the stock at the market price. The report that Combination had struck some good looking quartz in its shaft caused the stock to show signs of life.

Pioche Metals, which has two claims at Pioche and 13 claims under bond, has been placed on the stock list. The shares sold for 25 and 26 cents this morning. The company has an excellent treasury report and the treasury stock is still intact.

stock is still intact.

Prospects of Uncle Sam again being placed in the dividend column caused another lively scurry for the stock this morning. From 48 cents last Friday the price has been boosted to 72 cents. This was the highest record made at the morning session although it closed strong at 71 cents,

CURB MARKET.

The curb market showed some ac livity this morning although the trad-ing in unlisted stock was scant. Cedar changed hands at 7½ cents, and Bing-ham Central Standard at 30½ cents. Demijohn brought out a bid of 14½ cents and it was offered at 16 cents.

**************** This Morning's Metals. SINK MUCH DEEPER COPPER (cathodes) - 13 7-16

Will Send Shaft Down to 3,000 Level-Now Down 2,000 Feet.

McKINLEY IS SINKING WINZE

Grand Central and Victoria to Start Operations This Month-Baltimore Will Begin Developing.

(Special to the "News.")

Euroka, Feb. 1.-Tintic has several of the deepest mines in the state, the Mammoth, Grand Central, Bullion Beck, Gemini, and Centennial-Eureka being among them, each one of which having its workings down to a depth of over 2,000 feet. The new cables for the Centennial-Eureka mine have arrived and been taken up to the mine. These cables are 3,000 feet in length and it would be judged from this that It is the intention of this property to sink its main working shaft to that level. In fact it is learned from the management that it is the intention of the company to continue sinking until the 3,000 level is reached. The flow day, and a large tank to hold this wa-ter will be placed on the 2,900 level and hoisted at intervals by the cage. This flow may, however, be greatly increased as greater depth is obtained, as the flow has already increased somewhat since

has already increased somewhat since it was first encountered some time ago. Regarding the Centennial Eureka. Tintic's great bonanza, it might be of interest to state that the property closed the year just past with an output of 112,000 tons of ore. To carry this great tonnage to its smelting plant required 2,256 cars. This output came near being as heavy as the previous year, 1907, and would have been heavier if it had not been for the closing down of the United States Smelter at Bingof the United States Smelter at Bingham Junction for a time last year. The ore sent cut during 1908 was equally as mine underground than at any time in the history of the property.

SINKING ON THE M'KINLEY.

Sinking is again in progress at the McKinley. The work is being carried on in the bottom of the cave which was on in the outern of the cave which was broken into several weeks ago. A winze is being sunk, which will probably be put down a depth of from 75 to 180 feet, and as the showing at this time is highly encouraging it would not be surprising if the McKinley struck are also as greater depth is atre as soon as greater depth is at-

that the Grand Central would in all probability be running again this month, at least he hoped to be shipping ore from the mine shortly after Feb. 1. The Grand Central and Victorial Central and Victorial Central and Victorial Central Cent toria are still waiting for the Knight smelter to give them notice to com-mence the shipment of ore to that plant, and these mines do not propose to com-mence work until it is assured that the smelter is able to take care of the ore which they are capable of producing. A few months ago these mines started shipping to the local smelter and a snipping to the local smetter and a few weeks later were forced to stop because of necessary changes at the smelter. This will not occur again and when the smelter starts taking ore from these properties the Grand Cen-tral and Victoria will again take their places in the dividend columns. places in the dividend column.

BALTIMORE TO DEVELOPE.

In line with other activities of the castern part of Tintic, the Baltimore Mining company will purchase new ma-chinery and commence the development of its ground in the eastern part of the district, which is well located with ref-erence to the "new mines" being opened up there. The Baltimore company has experienced no trouble in placing experienced no trouble in placing enough treasury stock to give it a

enough treasury stock to give it a healthy treasury. The hoisting equipment will be ordered just as soon as the officials of the company decide what kind of a plant to get.

Most of the power being used in Thitle for operating the mines as well as for lighting purpases, is coming from the plant of the Telluride company at Grace, Idahe, the damage to the flume of the company in Provo canyon not having been repaired yet. It is stated by the management here that the Provoplant will no doubt be in operation again Tuesday. again Tuesday.

The Little Chief will start drifting upon the 1.090 and 1.400 levels about

the middle of the week.

ASSAYER'S OFFICE OPENS.

Uncle Sam's new assay office in Market street was thrown open to the public at 9 o'clock this morning and the first bar of metal purchased by the go frament within the State of Utah was made. The Consolidated Mercur Gold Mines company was the first to present gold builion to the office for sale.

The bar of metal was taken to the melting room where it was melted and

melting room where it was melted and later assayed. After being worked over for several hours the quality of the bar was ascertained and the mining company late today received a check on the sub-treasury for the amount. Work at the Uncle Sam mine is being directed to the drift 100 feet below the drift in which some good looking ore was struck Friday evening. Work in this drift was discontinued some time ago, but on the discovery of what appears to be a new body of ore this work was again taken up.

Indications in the drift off the second locine from the lower tunnel, in which the are has been found, are that the work was being done on top of ore body. The are was in the bottom of the drift, From the work done in the drift beneath this it is almost certain that some good ore will be struck. The officials of the company feel that there is enough work done to show that they may expect some better showings at the property. amount.
In all about \$2,200 worth of mety was received at the office today.

TINTIC COMBINATION IN QUARTZ

Quartz, which is said to be a good indication of something better, has been struck in the bottom of the 120been struck in the bottom of the Lis-toot shart of the Tintic Combination at East Tintic. The rock was broken into Saturday evening, and yesterday Con-tractor Duncan telephoned from Silver City to Manager B. H. Bullock at Pro-vo, the result of his find. The quartz

CONCENTRATES.

The Rustic group of four claims at Pioche, Nevada, has been taken over by W. M. Wantland and associates. The group lies between the Point property, the Oldtimer mine, The Ely Valley, and Columbia Pioche.

Ford W. Carrell and Dr. E. D. Woodruff of Rockford, Ill., have acquired a strong interest in the Utah-Arizona Gold & Copper company and will take an active part in its management. The board of directors as organized is as follows: Heber S. Cutler, president; James S. Steele, vice president; Walter J. Burton, secretary and treasurer. Heny Green, John F. Sheiley, E. D. Woodruff and Ford W. Carrell with John W. Geiger assistant secretary, in charge of the company office and books.

A telegram from the Nevada Hills property says that at the depth of 342 feet in the shaft on the great quartz ledge, 11 feet of ore has been struck which averages \$28, with picked samples running as high as 609 ounces in silver, 14 ounces in gold or \$580 at 100.

LATE LOCALS.

Horace G. Burt, for three years resident of the Union Pacific Railroad the same road, has been appointed re-ceiver of the Chicago & Great Northern railroad, vice A. B. Stickney, resigned.

George S. Siddons has been named as general western agent for the At-lanta, Biridingham & Atlantic railroad, with headquarters at St. Louis. Mr. Siddons territory includes the states of Colorado and Utah.

J. S. Houston, formerly with the Cotton lieht line at St. Louis, has been appointed general agent of the freight traffic department of the International & Great Northern railroad.

cles of incorporation of the Willow Bend Irrigation company of Sevier county, were filed in the office of Secretary of State Tingey today. The amendment pertained only to a change in the place of holding meetings, such to be held in future at Auroea. Sevier county.

Local Bank Clearly Articles Amended-Amended

Local Bank Clearings-Today's cal bank clearings amounted to \$843,-854.15 as compared with \$803,256.52 for the corresponding day of last

PRICES IRREGULAR

New York, Feb. L-Prices moved irregularly today in the opening dealings hanges generally were narrow. inghouse Electric declined 1% and Northern Pacific and American Smelt-ing large fractions. Canadian Pacific ose 1. A brisk rise in which a number of stooks advanced sharply was suc ceeded by a decline to the lowest

of stocks advanced sharply was succeeded by a decline to the lowest prices of the hour. Oenver & Rio Grande had an early rise of 1½ and Reading, Anaconda, Brooklyn Rapid Transit, Central Leather, Interboroush Motropolitan preferred and United States Rubber first preferred 1. Among the losses were Toledo, St. Louis & Western 2½, Erie first preferred 1¼, and Reading second proferred and Amalgamated Copper 1.

The sag in prices carried down Chicago Great Western "A" preferred 1½, and ¼, Minneapolis, St. Paul and Sault Ste Marle, New York Central and American Linseed 1. Prices then look an uptura, Reading rising to 13 and Chesspeake & Ohio, American Car and Tennessee Copper gaining 1 and United States Rubber 1½.

Bonds were irregular.

Prices were well maintained and some stocks went higher until the announcement was made that the supreme court had denied the petition of the Consolidated Gas company for a rehearing.

Consolidated Gas broke quickly, selling down 5½ to 115% and the rest of the list also weakened. Support was given to the general market before 1 o'clock and there was a brisk rally, Consolidated Gas rising to 118½. Colorado & Southern and Denver & Rio Grande preferred advanced 1 and Distillers' Socurities 1½.

The market closed barely steady and referred advanced I and Parish urities 134.

The market closed barely steady and all, Highest prices in the final hour howed gains for Mackay company 2½ and the Harriman Pacifics, New York central, Missouri Pacific, Pittsburg, C. & St. Louis, Wabsh preferred, Imerican Smelting, American Maltong preferred and American Sugar. I. Lackawanna sold at a decline of fund United States Pipe 1. Realization of profits made some invoads upon the gains.

PRODUCE. CHICAGO.

Chicago, Feb. L—Although weekly statistics were of a bearish nature, the wheat market opened firm today owing to a fair demand by commission houses and bull leaders. Weather conditions in this country were favorable for the fail sown crop, world's shipments were liberal and the amount on passage increased 1,600,000 bushels. At the start prices were a shade lower to ½ high-

er. May opening at 1.07% to 1.07%. Leter May touched 1.07%.
Local receipts of corn were exceedingly small—8 cars—and this light movement created firmness in the market for
that grain. Opening prices were % to
180% higher, May opened at 63 to 61%
and soid up to 60%.
Oats were firm on buying by cash
interests. May opened at 63 to 526-62%
and soid at 52%.
Notwithntanding a 10 to 15c advance in
live hogs the provisions market snowed
only moderate firmness. Prices at the
opening were unchanged to 5 higher.
The market gained in strength as
trading advanced, a big decrease in the
visible supply of wheat in the United
States being responsible for much of
the bullsh sentiment. May advanced to
1.69%. The market closed strong at the
top with May up 18 6 % at 1.09%.
Corn—Additional strength developed
later. In the day in sympathy with

DALY WEST

Resolutions of Cincinnati Stockholders

At a meeting of the Cincinnati stockholders of the Daly-West Mining Company held in the Business Men's Club in that city on January 25th last, a committee composed of Thomas James. Julius Beisor and Charles Lange, therestofots appointed, reported the following resolutions which were by the stockholders unanimously adopted and ordered published, to-wit:

Resolved, By the Chedmati stockholders of the Daly-West Mining Company as fellows:

1. We are opposed to any merger or consolidation of the Daly-West properties with any other property, believing in the merits and possibilities of the holdings of this company, and that any consolidation would be detrimental to the interests of the Daly-West stockholders.

2. We are opposed to the unbusiness-file conduct of the management in the past in permitting the large cash surplus of this company to remain univested and without bearing interest and demand that such by-haws be adopted at the annual stockholders' mueting that will mears for the future the proper and safe investment of all surplus funds of the company.

2. We favor the employment of all english stands for the future the proper and safe investment of all surplus funds of the company.

3. We favor the employment of a General Manager by the Directors, whose undivided time and attention will be given to the Interests of the Daly-West Mining Company, believing our property to be of sufficient importance to require such attention. We stand for a conservative and business-side management in both raine operations and business a conduct of the Company's affairs sudfavor the resumption of dividends at such time as its consistent with intelligent and conservative mining and safe business operations.

4. We further favor a complete recognition of the rights of all suckholders by the management of our Company, and such stockholders should at all times receive upon reasonable demand, information as to the financial condition of the company as well as physical condition of the property.

3. We condemn as unbusiness-like the

7. We invite co-operation of all stockholders concurring in the resolutions above set forth in the present campaign for reorganization.

THOMAS JAMES, Chaleman. JULIUS BEISER, CHARLES LANGE. Committee.

Those desiring to co-operate in the above movement should mail proxies in favor of H. Otto Hanke and John J. Daly to Milton D. Joseph. Room 48, Judge Bullding, Sait Laise City. Proxies can be obtained by application to Mr. Joseph at the above address. Proxies already given to the present officers can be revoked and new ones issued in favor of Mr. Hanke and Mr. Daly.

THOMAS JAMES, Chairman.
